COMMISSIONERS ATIWORK.

THE IMMENSE AMOUNT OF BUSINESS ALREADY BEFORE THEM.

A Memorial from the Walla Walia Board of Trade-The River Interests-A Committee from the South-Express Companies Interested-Washington Notes. WASHINGTON, April 5.—The usual heaps of mail matter were piled upon the big brown desk in the temporary office of the interstate commerce commission this morning at 10 o'clock. The first visitor of importance was Senator Dolph, of Oregon, who presented a memorial from the Walla Walla board of trade, in which the petitioners prayed that the crop of the present year be relieved from the strain of exorbitant freight charges. Senator Dolph also presented a petition from the board of trade of Portland, Oregon.

The memorialists say they do not know whether the law forbids the making of rates to coast points so that the railroads may compete with the water routes and the Canadian Pacific railroad. They ask the commission to interpret the law and to give them the Portland board of trade, the dispensing power.

Congressman Butterworth, accompanied by several representatives of "river interests" asked the commission for an opportunlty to be heard in opposition to the representatives of the Southern Railway and Steam-ship association heard on Saturday last. Copies of the documents submitted by the railroad men were handed to the gentlemen, who will ask to morrow that an hour be set aside for the he sring of their side.

A committee from the Macon (Ga.) Chamber of Commerce, consisting of Messrs, W. H. Ross, H. D. Johnson, S. Waldeman and J. F. Hanson, were then received by the commission. Their position was one in line with that taken by the Atlanta body on Saturday. They set forth that the effect of the enforcement of the fourth section of the act would be to increase through rates from 18 to 30 per cent. beyond present prices, and would not reduce the tariff between intermediate points. This increase of through rates meant the destruction of not only the rallroads, but of all great commercial interests In the south. They therefore prayed that the long and short haul section be not applied to southern railroads,

in reply to a letter from the Canadian express company, of Montreal, asklug if the interstate commerce act applied to express companies, an answer was returned stating that an early opportunity would be given the express company to be heard on the subject; and, until such hearing took place, the commission would hold that the law did apply to express companies. Recess.

The interstate commerce commissioners have issued the following notice with the request that it be published: "Application for the official action of the commission shail be made by petition, which shall set forth the facts on which they are founded, and be verified by the oath of the applicant or of some authorized agent or attorney."

Only a Rumor After All.

Do You Want Anything Washington, April 5.—It is stated at the executive mansion that the published report WASHINGTON, April 5.—It is stated at the of the purchase of a saddle horse for the use of the president has no other foundation than the fact that a horse has been purchased by Col. Lamont to drive to a buggy. The president has not thought of taking to equestrian exercise. The published reports about household gymnasiums for the president's use are also contradicted. Some boxes of such apparatus has been received from enterprising manufacturers, but have not been opened, and are not likely to be. The president is satisfled with the precautions that he has been taking in regard to his health, and does not contemplate seeking new forms of exercise.

Historic Battleship.

Chamber and Parlor Suits EWASHINGTON, April 5.—Secretary Whitney has decided to order that the historic battleship "Kearsarge," be repaired at Portsmouth, N. In the afternoon of the same day they passed successfully their final examinations for the degree of "M. D.," and after driving six or seven miles were returning to the city, and stopped at a wayside hotel for refreshments. Holman indulged to excess and went outside, as it was thought, only for a moment, but did not return, although a large reward has been offered by his father, a rich merchant in Brantford, Ont., and persistent search for him has been in progress by detectives, not the least clew to what has become of him has been obtained. While in the bar of the hotel he exhibited a large sum in bank bitls. There are fears that he has met with foul play.

A PECULIAR ACCIDENT.

A Saw Mill Boller Explodes and Kills a Woman Three Hundred Feet Away.

CINCINNATI, April5 .- The boiler at George Crawford's saw mill, on the river below Millcreek bridge, exploded between 9 and 10 a.m., killing Mrs. Lizzie C. Grant, standing in an adjoining shanty boat. The boat itself was mashed to pieces, although 300 feet dis-dant. Mrs. Grant had just been out to a gr cery on West Sixth street, and had returned but three minutes before the explosion took place. The husband who was asleep in a bed twelve feet distant, was uninjured. The whole boiler went up 200 feet in the air, describing a curve, came down like an avalanche on the shanty boat, crushing It to

Mr. Grant is a brakeman for the Cincinnati, Hamilton & Dayton, and work nights, sleeping in the shanty boat during the day. When the explosion took place Grant was fast asleep, but swoke, and had just got out of bed, when the iron mass came whistling down, passing within eight feet of her husband, and entting Mrs. Grant literally in two. Mrs. Grant was twenty-oue years old, and was only married to Grant three years. She has no children. The couple are living with Mrs. Mollie McLean, a widow, whose hnsband was killed on the Big Four about fourteen months ago. She owned the shanty boat, but was away washing at the time the disaster took place. At the mill about four or five persons were more or less hurt by the explosion, but none fatally.

The engineer, Mike McCarthy, escaped without the slightest injury. The bollers were old and are said to have been musafe. C. A. Grant, husband of the woman who was killed, was formerly engineer, and said some time ago that he dld not consider the boilers safe. There are two of them in the battery, but only one let go. The building overhead was demolished, but the damage to the mill was not very large. Mrs. Grant's body was removed to the Gerke residence or. Gest street, where the mother of the deceased

The boat is about thirty feet long and was an unusually good one-worth perhaps \$600. It lay high upon the river bank, about 600 feet west of Millereek.

SAM SMALL DYING.

The Great Evangelist Close to the Dark River.

CINCINNATI, April 5.-News he s been recelved that Sam Small, the co worker of Sam Jones, is probably dying at his home in Atlanta. Mr. Jones has been almost prostrated for several days and this was the reason he preached such a short sermon at Music hall last night. Mr. Small has been very sick for several weeks. He went home after his memorable Boston campaign, snf. fering with hemorrholds. The original trouble has led to blood poisoning, and there is little hope of his recovery.

In his sermon at St. Paul's church yesterday morning, Mr. Jones feelingly referred to his dying comrade, who for nearly two years has labored so earnestly to reclaim the fallen and sinful. Sam Small is one of the most noted journalists in the country and a most elequent speaker. Mr. Jones will conclude his work in Cincinnati Tuesday night, and hasten at once to Atlanta to be present at the beside of him whom he loves more

Towa's Liquor Laws.

DES MOINES, Iowa, April 5 .- County Attorney Phillips has discovered that many suits brought against drugglsts and other authorized liquor dealers to recover penalties incurred for technical violations of the law in which one-half of the penalty should go to the school fund and the other half to the informer. Some of these cases had been prosecuted to judgment and others had been dismissed. Investigation showed that they had been compromised by the partles upon payment to the informer of his moiety of the penalty, the school fund being Ignored as to its share, where judgment had been entered, stipulations were on file that no execution should issue. These stipulations have been disregarded by Mr. Phillips and he has caused executions to issue, and will collect the sums due to the school fund. It becomes manifest daily that a ring has been organized of some constables, justices and lawyers with a view to obtain revenue for themselves, the gang being oblivious to the principles of temperance save as they can plunder for themelves.

Torpedoes on the Track.

PATERSON, N. J., April 5 -Some one placed torpedoes on the street-ear tracks, at Main and Market streets, last night, and a passing car exploded them. The passengers were thoroughly frightened, but nobody was hurt, The loud explosions created almost a panic in the crowded thoroughfares. This is the third attempt made here to blow up street cars, but all efforts to find the perpotrators of the outrage are unavailing.

Great California Land Steal.

San Francisco, April 5.—The Federal grand jury has found thirty-three indictments for perjury and eight for couspiracy against Surveyor General Theodore Reichart, John A. Benson and John McNee, contractor, and others. The surveyor general's office has long been manipulated to swindle the government out of public lands and money paid for surveys. The frauds aggregete about \$3,000,000.

Heavy Damage, But No One Hurt. PITTSBURO, April 5.-Two freight trains vere badly wrecked in a collision at Bolivar, Pa., on the Pennsylvania railroad, at 5 o'clock this morning. Two cars of cotton caught fire and were entirely consumed. The tracks are so badly blockaded that all trains are running via the Blairsville extension, and are from two to three hours late. No person was hurt. The loss will be very heavy.

CARPENTERS GO OUT ON A STRIKE BY THE THOUSANDS.

They Strike in Cincinnati for a Reduction in Hours and Increased Pay-Over Six Thousand Quit Work in Chicago-Lockout in Rochester-Labor News.

CINCINNATI, April 5,-Nearly all the 1,100 carpenters and planing mill men employed in this city, Covington and Newport went out this morning. A great many quit Saturday night and dld not return this morning. if there is no general rain soon they want an Their demands are for nine hours and ten hours' pay, or \$2,80 a day. Many employers are willing to grant the nine hours, but the men also want only eight hours on Saturday, and this demand the bosses do not feel like yielding to.

A rousing meeting of 500 carpenters and hall. John Valerius presided, and C. A. Rockwood and James Cannon acted as secretaries. Reports were heard from the various mills and shops, and resolutions were passed to stand firmly by their demands. Committees were appointed to visit Brockman, Myers, Loughead, Richards, Behren, Griffith, Mills, Spellmire & Co., and other shops; Pogue's building, on Fourth street; the new bank building at Third and Walnut streets. where the men were reported still working, and persuade them to join the strikers. A committee of five was also appointed to visit all the carpenters working in Avondale and Clifton and induce them to quit work.

The men from Mill, Spellmire & Co., on Third street, reported that they were not allowed to talk to the workingmen, but were threatened with a ride in the patrol wagon. The twenty-five men at Caleb Lingo's, on Hamilton pike, Twenty-fifth ward, were reported working, as Mr. Lingo had agreed to their demands. The sixty men were reported not working at E. Q. Longhead & Co.'s because their boiler had burst. Lapt & Bro,'s men on Central avenue were re ported working, though their demands had not been agreed to. The men were also reported working at the Ohio planing mill, Poplar and Baymiller, and a committee was appointed to get them out. There are probably seventy five shops and planing mills in the city and the men are nearly all out. A great many of the employes express themselves willing to grant the nine and \$2.80 pay if all tirms will agree to it. There will probably be a satisfactory settlement by tomorrow or Wednesday at least.

Freestone and marble yards throughout the city were generally deserted Saturday. All work was suspended and will probably remain so until some satisfactory arrangements many be made. The employes say they made their demands early, so that the bosses would have plenty of time to agree to terms and make coutracts accordingly, and that the advance will fall on those having building done. Stonecutters are warued from the city by the Stonecutters' union,

The hodenriers' lockout is more serious. The bricklnyers depend upon them and several other building trades cannot work in consequence. The hodcarriers insist on thirty cents an hour, and nine hours a day. Some of the stonecutters who went out on

a strike returned Saturday, having been allowed their demands of forty-five cents per hour for eight hours' work.

Typographical Union, No. 3, yesterday resolved to ask for the five cents increase per one thousand on composition which has been contemplated for some time. Their demand takes effect to-day-on morning papers fortyfive cents, on afternoon papers forty-two cents, and on book-work forty-five cents. The matter will probably be settled by arbi-

The shop committee from C. Moerlein's brewery, 676 and 678 Eim street, reported that Moerlein had granted the demands of his men for nine hours and \$2.80 pay.

In Chicago.

CHICAGO, April 5.-Over six thousand carpenters went out on a strike this moruing. They have resolved that nothing shail be done in their line until all the bosses, or at least a great majority of them, have acceded to their demands—eight hours per day and thirty-five cents per hour. Thus far, only ninety employers have expressed a willingness to come to terms with the men, while the 300 other bosses have either positively refused or kept silent. Although the prosposts are not as bright as had been expected. the strikers declare they will remain out to a rean until they win the fight. The executive apy time during her passage. Amaigamated Association Scale. PITTSBURG, April 5 .- By to-morrow all of the scale proposals of the Amalgamated Association of Iron and Steel workers will be filed in the general office for compilation and printing. A majority of the lodges have voted in favor of advancing the scale to the basis of \$5.50 for puddling, while some advocate \$6. There is also a general sentiment in favor of a change of the basis of the scale. This change has been left to the decision of

the June convention. Hartford Painters Quit Work.

HARTFORD, Conn., A; rll 5.—Three hundred lourneyman painters of this city refused to go to work this morning because their demands for nine hours' work and \$2.50 per day and weekly payments were not complied with. The boss painters declare that they will not grant the request, and the men say they are prepared to sustain a long strike.

ROOMESTER, N. Y., April 5.—Several of the principal building contractors declared a lockout this morning, until the masons and laborers employed by them agreed to work ten hours. About 150 men are idle,

TROUBLES OF LABORERS. RELIEF FOR THE DROUTH SUFFERERS. A Bill to Postpone the Forced Collection

> of Taxes for the Year 1886. GALVESTON, Tex., April 5.—A News special from Austin says: "A bill postponing on account of last year's drouth the forced collection of taxes for the year until August next, is now in the governor's hands awaiting approval. Although the bill passed by a two-thirds vote, many members of the egislature anticipate a veto, if the governor finds the measure is likely to embarrass the treasury. The prevailing drouth and its seeming extension over the state is giving great concern here.

"Members of the legislature freely say that extra session and the postponement of taxes for this year as well as for 1886. They contend that it would be better to borrow money to neet current expenses than to confiscate the homesteads of thousands of poor people. The members say if the present drouth continues nearly the entire farming class will require temporary execution mill hands was held to-day at Workmen's from forced tax sales, as protection against land speculators."

Hanged By a Mob.

CORNINO, Ia., April 5.—John McKenzie, the murderer of John H. Riggs, was taken from the jall by a party of masked men last night and hanged to a tree in front of the building., McKenzie coolly walked with the lynchers, talking and jesting. His last words were: "Give my watch to my mother."

McKenzie and Riggs were neighboring
farmers near Eureka, eight miles north of
here. The former had leased some land from Riggs, and, attempting to feed cattle thereon after the lease had expired, was barred out by Riggs. One morning, about a month ago, McKenzie rodo up to Riggs door with a revolver in his hand and said: "I'll give you just three minutes to open that gate!" Riggs started toward the gate, when McKenzie ilred, to scare him. Riggs stopped and faced McKenzie, who immediately shot again, the ball penetrating below Riggs' eye and killing hlm. McKenzie came to Corning and gave nimself up as coolly as though he had killed a dog. Riggs was a quiet, respected old bachelor. The lynching was doubtless incited largely by the long time occupied in a recent trial for murder and the fear that McKenzie would escape hanging.

Captain Bibb's Statement.

MONTGOMERY, Ala., April 5 .- Capt. Peyton Bibb, of the Montgomery, "True Blues," says when he wrote Secretary De i.eon, of the National drill he had no idea that the application of colored companies to enter the drill would be accepted, as he felt quite satisfled they could be ruled out on a technicality. He did not believe there was a colored military company in the United States regularly organized and equipped; citing the Capital City guards of this city as not having been assigned to any regiment. He never had any idea of taking his company into the same eamp with the coloresi companies, and he believed that the rule inserted in the circulars sent out by the managers of the drill that they reserved the right to reject all applications was extended to cover this very thing. Furthermore he thought that if colored companies were permitted to enter, they could not be placed in the camp, or entered for the competitive drills with the

A Valuable Discovery in Electric Lights. New York, April 5.-A practical test recently made in this city with a Clark dynamo of twelve-horse power has proven that it is sufficiently strong enough to light twenty Brush lamps operating at their full capacity. Ordinarily it has required a dyname of twenty-herse power to supply that number of lights. This discovery will no doubt revolutionize the whole system of electric lighting now in use and greatly lessen the cost of the light.

A Ten-Round Prize Fight.

St. Paul, April 5.-A rattling ten-round prize fight was fought here last night between Fred. Engle, a New Ulm butcher, and John Murray, a plumber, of Minneapolis. The fight resulted in a draw, although Engle had the best of it, and would have stopped Murray in another round. Both men were badly pun-

A Dislinctly American Decoration.

It is getting to pass at our theatres that the managers will presently have to provide a special section, with ample troughs and condults connecting with the sewer, as a tobacco chewers' sty. I have often noticed in the court rooms and corridors and ante-roon . of our public buildings how the decorations were enhanced by original designs in sepia. The cuspidor is a familiar accessory of every hotel parlor, and a good many private ones. There are esthetic cuspidors made specially for the drawing room, and humble hut capaclous ones for the bar room. But it is, anyhow, impossible to wander anywhere in public without encountering something, from the modest box of sawdust up to the gilded majoilea um, provided for the salvation of the carpet on the floor.

The theatres have not yet adopted the cuspidor as an attachment of every seat. Consequently the men who chew tobacco during performance are reduced to the more primitive methods of relieving their overburdened months. The other evening, at Mr. Harrigan's theatre, my neighbor was a well known man about town. He was sumptuously arrayed in evening dress, and when he came in vone a bran new silk hat of the latest London make, which he deposited under his seat. When he prepared to depart he discovered that the person behind him had adapted his head gear to the uses of the old time sawdust box, and had resorted to it so diligently that its value as a hat was over for good and all. The disgusted flaneur had to go home in a coach, swearing that he would hold the management responsible for his defiled tile. The author of its destruction sat placidly chewing his cud while his victim was denouncing him, and said never a word in reply.—Alfred Trumble in New York News,

The building, which was originally a four story structure, has been converted into double this number of floors. In the main hall on the top and lower floors are arrangements for cooking, and each lodger has the privilege of using the common fire. Adjoining this cooperative kitchen are the water closets, always out of repair, and it is no uncommon sight to see the Chinese standing on bits of brick and stone and placidly cooking, while the floor is covered with the overflow from the choked closets, and the atmosphere is like that of a huge cattle stable at the east when thrown open on a winter morning. The coolle seems to be able to live without air, for in the closets that serve as rooms in the great human lilve there are never any means of ventilation, day or night. EDUCATIONAL INTEREST.

The meeting conducted by Rev. E. L. Plain Talk by a Rectorville Teacher owell, in the Christian Church at Louismon Schools.

GRAND CHANCELLOR WILLIAM RUDY, of and democratic citizens, the only safe- yarns. guard to "life, liberty and the pursuit of happiness" guaranteed by the constitucation of rich and poor can only be obtained by the State institution called "the common school."

'The common school! oh, let its light Shine through her country's story; Here ites her wealth, her strength, her might. Here rests her nuture g'ory."

Yes, indeed, unless the lamp of knowl edge send its rays into the minds and hearts, and even into the pockets of the T. Y. Nesbitt returned last night from citizens of our generation, our country's story will be but a repetition of the history of the older republics. The United States of America will have become the Niobe less, her withered hand holding not even the urn which once contained her jewels.

The grasping avaricionsness of the millionaires of this generation has disseminated itself into every department of lile, and the desire to necumulate wealth over-

American people.

This tendency to evil grew out of the agencies and political corruptions. Unless it can be counteracted by an intelligent incoming generation, civil and religious freedom will again take the wings of her emblematic engle and depart from the

It is no time to sleep, nor to divide the forces of education because of petty strifes; but the time to let the morning sun of the day of education illuminate the gilded temples of science, and its merid-lan beams kiss the flower-bespangled grounds contiguous thereto. It is not the time to squeal when the development of the child's mind demands the expenditure of a few cents for a new book, but the time to furnish cheerfully not only a whole library of text books, but to en-liven the halls of the pupils school-home with the product of the easel, the lithographic press, and the Instruments de-manded for scientific research—for the ac-

quisitlon of knowledge. This is not the time to make yourself a particep scriming to the murder of your country, but the time to let the light begin to "shine through her story;" the time to give your cordial support to the cause of education; the time to inculcate In the minds of your children a desire to gain imperishable riches by owning a wealth of mind; the time to bring home and school into closer relations; the the young. Can it be done? Yes; as surely as education, good-breeding and Jacob Greene. Some of Willams' friends surely will the same qualifications, becoming general through the medium of our schools, make a nation of gentlemen properties; especially adapted to the wants of deblitated ladies suffering from weak back, inward fever, congestion, inflammation, or uicerstion, or from normal superior of the power tried to give an exhibition of the power tried to give an exhibition of the power tried to give an exhibition of the power that was in him, as he thought, and pounded a table and shoved it about over the court room until stopped by order of the court room until stopped by order of cently accept a millennium. who will perpetuate the principles of our weak back, inward fever, congestion, inthe court room until stopped by order of cently accept a millennium much nearer

A BELIEF THAT THE COUNTRY HAS BEEN SOLD TO THE BRITISH.

Reports that Greatly Alarm the Ameer. The British Authorities in India Appealed to-Newspaper Men Shut Out of the Spanish Parliament-Notes.

LONDON, April 5.-A Lahore paper annonnces that the ameer of Afghanistan is much alarmed over the discover that a number of native tribes are combining against him, and has appealed to the Indian authorities for help and advice. The Afghans declare that the country has been secretly sold to the British, and that the railway to Candahar has been sanctioned by the ameer to facilitate their advance.

The fanatical element of the people is rampant against the ameer, who has removed his treasure to Fyzabad, whither he will retire himself if he is defeated by his dissatisfied subjects. Other accounts say that the Ghllzais are restless under the ameer's tyranny and have asked the Indian anthorities to depose him. The Pioneer asserts that Lord Dufferin, the British viceroy, received disquieting news from Afghanistan while at Allahabad recently.

In Remembrance of Crowley.

QUEENSTOWN, April5. - A remarkable demonstration, in which over twenty thousand persons took part, was held yesterday at the cemetery of Youghal, in the County Cork. The occasion was the twentieth anniversary of the shooting of Peter O'Neill Crowley, who, during the rising in 1867, in company with Capt. McClure, was surrounded by the military and police in Kilcoony wood, outside Mitchelstown, and was subsequently shot dead as he was making his escape across the

A beautiful and costly monument had been erected in the cemetery to Crowley's memory, and yesterday it was unveiled. Special trains brought people from all parts of the country, and over twenty bands were present. Only Irish and American flags were displayed.

Indignant Newspaper Men.

MADRID, April 5.—In consequence of the finding of a case of gunpowder, with a cartridge and fuse attached, in the doorway of his Bureau, the President of the Cortes has canceled all cards of admission to the parhament buildings held by journalists, both foreign and native. The newspaper men are very indignant at this action.

German Tyranny.

Paris, April 5.—German agents are making domiciliary visits in the Reichland with the object of discovering any documents that would show their possessor's connection with the Derelde League. Orders have been given by the German authorities to destroy the French tri-color flags preserved in the provincial mairies.

The "Scythia" All Right.

Boston, April 5 .- The special train chartered by the local agent of the Cunard iine, Mr. Martin left here at 3:15 this morning with about thirty reporters aboard to investigate the story of the Scythia disaster. When the train arrived at Scituate it was daylight and the small army of scribes trudged three miles through a heavy snow to the shore. The sea was ruuning mountains high and dashing far up over the cliffs but no sign of a strunded steamer or a wreck of any kind could be seen. The party made as thorough an investigation as was possible, but without avail. There was surely no wreck. The reporters returned to Boston and have since been trying to find out how the rumor originated. It was believed here by almost everybody the steamer was due yesterday and owing to the interruption of telegraphic communication on account of the storm there was nothing to base a denial on. The Cunard agent thinks the captain of the Scythia held well out to sea and made no endeavor to reach port in the storm.

Women at the Polls.

DETROIT, Mich., April 5.-The election is progressing quietly in this city. The greatest interest centers about the prohlhitory amendment vote. The sensational feature of the day is the number of women who are out at nearly all the poils laboring faithfully and like beavers for "the cause," while jostling them for elbow room are the saloou proprietors, all of whom have closed their places of business and are laboring jealously to kill the amendment. It is estimated that Wayne county will give 20,000 to 25,000 majority against the prohibition measure, while the upper peninsula will also swing into line with a fair majority. Reports from all towns in the lower peninsula are conflictingboth sides claiming the advantage at noon. The result is very uncertain, and victory either way will be barely won.

Gallagher Won.

BUFFALO, April 5 .- The wrestling match between Roundsman James Quigley, of the New York police, and ex-Police Denuy Gallagher, of this city, for the police champion-ship of this cities, took place at the Main Street rink last evening, and was awarded to Gallagher. The match was best two in three, first to be side hold without harness, three points down, and the second catch-ascatch-can, two points down. Gallagher won the first bout in one minute. The next bout lasted ten minutes and was very evenly contested. Gallagher threw Quigley and claimed a foul but the referee decided against the claim. The men again took hold and after a three minute struggle Gallagher threw Quigley squarely and won the match. Matsadi Sorakichi challenged the winner. Mayor Becker presided at the contest.

Challenge in Trotting.

CHICAGO, April 5.—Nathan L. Strauss is anxious to trot his bay gelding, Majolica, against any horse in the country, barring Harry Wilkes. The challenger may name any purse he likes, and Mr. Strauss will

Carpet Sweeper Factory Burned. Goshen, Ind., April 5.—Fire this morning partially destroyed the immense carpet sweeper factory of E. W. Walker & Co., this city. Loss \$11,000; fully insured.

The Same Old Story.

CHICAGO, April 5.—Driven to madness by jealously, Herman Knauf, Saturday evening, shot and seriously wounded his sweet-heart, Lizzie Zinke, and then shot himself. His wound may result fatally.

The jury in the Schwartz-Watts express robbery case, Morris, Ili., attended church Sunday. Minister Axtell, learning of their presence, delivered a most sensational sermon, prejudicial to the prisoners. The incideut will be inside the basis for a new trial in case of conviction.

POINTED PARAGRAPHS.

Topics of the Times Given in a Terse and Spley Manner.

The collapse of a church at Louguolassa, Sicily, killed forty of the congregation.

Fire at Clarksville, Tenn., Sunday destroyed \$200,000 worth of residences and Jealous Herman Knauf, Saturday evening

and himself. Both may dle. Chinese opium firms, unsuccessful in an attempt to smuggle their drug into the Sandwich islands, offer \$5,000 for King Kalakaua's

at Chicago, shot his sweetheart, Llzzie Zinke

The fashionable hotel Del Monte, Monterey, Cal., burned Saturday night. Several hundred guests had narrow escapes. Incon-

At Polo, Austria, Saturday night, the ground under the amphitheater sunk and the building disappeared. Dense vapors ascend from the chasm.

The Cunard steamship Scythia arrived safely at Boston, Sunday. The sensational curnors of a disaster on the coast at Scituate were entirely groundless.

The feeling against the new crimes bill is so strong and bitter in Ireland that if arms were only supplied a most disastrous revolution, it is said, would follow.

The steamer Saragossa from Baltimore for Port Antonio, foundered at sea, 350 miles north of Watting's Island. The crew were saved and landed at Bermuda. In a fight over business troubles between

A. C. Brown and M. A. Cockerham, of Coushatta, La., Sunday, Brown and Henry Scheen, a son-in-law of Cockerhain, were Mrs. Watson, wife of a New York mer-

chant, supposed to have been killed in the Lectonia (O.) raliroad accident, and still later rumored to be the victim of the roadside murder at Rahway, N. J., has turned up alive in Omaha.

Foreign.

Three persons concerned in the attempt on the czar's life have been hanged and a large number of officers arrested. Revolts, instigated by Russians, are reported in Roumania, together with an attempt to assassinate the prime minister. The Parnellites feel confident of defeating the coercion bill, Churchill comes out with an approval of the government's proceedings. At Pola, Austria, the ground under the amphitheater sank and the building went from view. Vapors ascend from the immense chasm opened. DeGiers has trlumphed over Katkoff, and will continue as Russian foreign minister. The German National Liberal opposition to the coclesiastical bill is dying awny, but the attitude of the hostile Center remains un-

GOOCH'S

OF WILD CHERRY, TAR, CLYCERINE, ETC. WILL CURE CONSUMPTION

tnd is the best remedy for the cure of sij affections of the Throat, Lungs and Chest, such as Consumption Colds, Coughs, Asthma, Bronchitis. Whooping Cough, Croup, Pain or Oppression of the Chest, Hourseness, Spitting of Blood, and all Pulmonary Diseases.

E have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN SYRUP. In her culous matter is nothing more than nourlahment imperfectly organized. Now, if we can procure the organization of this food material so that through the process of electric affinity it may take it since in the system, we can cure the disease. This is just what this Syrup does. It at once stop the progress of the disease hy preventing the further supply of tuberculous matter, for while the system is rader its infinence all courishment is organized and assimilated. It thus controls Coughs, Night sweats and till the symptoms of Consumption. Consumption is one of the most loathsome and terrible of a said diseases, and makes the life of the poor consumptive a held on earth. Until recently that terrible disease have each owned an affliction beyond the reach of medicine; but a new era in the management of snimonary diseases seems to be dawning upon the scientific medical world, and, since many distinguished, vicians have acknowledged that consumption can be cured, few there are who attempt to controver near opinion. To those singled out as victims to that fatal malady, we offer a remedy sure in its result as bring back health to their poor weakened frames, and joy to the hearts of liteir friends.

Consumptives, hecause all other things fail, believe not that MEXICAN SYRUP will. Not a single suffer need perish if he or she will take GOOCII'S MEXICAN SYRUP in time. A cough is unlike any time swmptom of disease. It stands a conspirator, with threatening vice, menacing the health and exist need a vical organ; so commence at once at the first indication of a cough. TRY 17, you who suffer, also convinced. Do you want to be saved from a consumptive's grave? Then make one more trial. This centry is the reach of everybody; it only costs 50 cents a bottle. Is your life not worth 50 centes? I so, make one more trial. Is not your life indeed worth one more trial? Test the trinh of our words, it of your words, it is the reach of everybody; it 7 E have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN SYRUP. * Fuber
